

Section 18 Emergency Exemption

FOR DISTRIBUTION AND USE ON DRY BEANS IN THE STATE OF MICHIGAN DURING THE EMERGENCY EXEMPTION PURSUANT TO SECTION 18 OF FIFRA, AS AMENDED.

REFLEX[®] Herbicide

EPA File Symbol No. 04-MI-10

EFFECTIVE DATE: June 1, 2004

EXPIRATION DATE: August 15, 2004

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLICATION RECOMMENDATIONS

Crop	Target Weed Control/Suppression	Weed Growth Stage at Application (No. of Leaves)	Rate/Acre	Method of Application	Maximum Number of Applications
Dry Beans	Black Nightshade Common Ragweed	1- 4	1 pint (0.25 lb a.i./A)	Ground Only	1

SPRAY ADDITIVES - Add nonionic surfactant containing at least 75% surface active agent at 0.25 to 0.5% (½ to 1 pint per 25 gallons) of the finished spray, or nonphytotoxic petroleum-based crop oil concentrate containing 15% approved emulsifier at 0.5 to 1.0% (1-2 pints per 25 gallons) of the finished spray. Use of crop oil concentrate can improve weed control but may slightly reduce crop tolerance.

Thorough coverage of the weeds is essential to obtain adequate control of target weeds. Refer to the EPA-registered product label for additional application recommendations.

REFLEX herbicide requires a 1-hour rain free period for best results. Do not apply if rain is threatening.

RESTRICTIONS

- Refer to the EPA-registered product label for rotational crop restrictions and region restrictions. Fomesafen may not be applied to the same acreage more than once every two years.
- Growers should be informed that in areas where soils are permeable (sand, loamy sands or sandy loams), and the water table is shallow, fomesafen may leach to groundwater. If you are uncertain as to whether or not you meet these conditions, please contact the groundwater technician in your local soil conservation district office.
- Application must be made prior to bloom.
- Do not apply within 30 days of harvest.
- This product is toxic to birds and mammals. Do not apply directly to water, or to areas where surface water is present. Do not apply to sites where run-off is likely to occur to aquatic habitats. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater or rinsate.
- Care should be taken to avoid adverse impact to endangered or threatened species that may occur in treatment areas.
- Do not make applications when weather conditions favor drift from treated areas.
- In areas where soils are permeable and the water table is shallow Fomesafen may leach to ground water.
- Livestock may not be grazed in treated fields.

All applicable directions, restrictions, and precautions on the EPA-registered product label (EPA Reg. No. 100-993) are to be followed.

Any adverse effects resulting from the use of Reflex Herbicide under this emergency exemption must be immediately reported to the Michigan Department of Agriculture at (517) 335-6542 .

This labeling must be in the possession of the user at the time of application.
